

A FEMALE SHARK.

Mrs. Margaret Turgoose, Charged With Floating a Wild Cat Mining Scheme, Arrested.

Twenty Thousand Shares Placed Among the Poor Working People of St. Louis by Fraud.

The Property in the Black Hills, and It Assays Away Up in Stone and Clay, and That Is All.

St. Louis Republic, Aug. 25.—The mining investing public have no sooner recovered from the shock of discovering that they had been taken in by the Tourtelotte mining scheme than they are brought face to face with what is alleged to be a sensational mining fraud. Yesterday the St. Louis Republic published a sensational article on a charge of fraud, at the instigation of L. F. Mitchell, an engineer at the Union elevator, a woman who is known to scores of people as Mrs. Margaret Turgoose. Last August a year ago Mrs. Turgoose and her husband, Isaac Turgoose, succeeded in organizing and floating stock in what is known as the "Silver Point Mining and Milling Co.," whose alleged claims are said to be located in Galena, Dakota. This company was incorporated under the laws of the state of Illinois, with a capital stock of 1,500,000 shares of a par value of \$10 a share. Officers were elected and an office secured at Missouri avenue and Fifth street, East St. Louis. Between 17,000 and 18,000 shares of the stock of this company were, it is claimed, placed by Mrs. Turgoose and her husband among a large number of poor, working people in St. Louis at fifty cents a share. Representations were made to them, it is alleged, that the property was well developed and that it was put upon a dividend paying basis in a very short time. Samples of ore were shown the investors as being the product of the mine, which, upon being assayed by a well known assayer in this city, showed \$157 in silver to the ton, and it was upon these representations that the stock was placed. It was not until the return of an expert, who had been sent to examine and report upon the mine, and the assaying created in the minds of the investors. It was alleged in his report that not only was the mine worthless, but that it never contained an ounce of ore, and further that the samples shown to them, and upon which the stock was sold, had been taken out of an adjoining claim, known as the Romero, and of which Isaac Turgoose, husband of the woman, owned a one-sixth interest. A like enterprise is said to have been put in operation in Chicago by the same parties.

Mrs. Turgoose was arrested at her residence, 2316 Pine street, last evening and taken to the Four courts. She was held in bail in the sum of \$1,500, which she furnished three or four hours later. A warrant was also sworn out against her husband. In regard to the location and condition of the mine and its probable value Mrs. Turgoose said: "The mine is situated nine miles from Deadwood, Dak., and is a neighboring property to the Homestead mine. The claim was located by my husband twelve years ago, though it was not until a couple of years ago that the vein was struck that makes our mine a rich and valuable property. Shortly afterwards it was stocked and my husband and myself placed some of it on the market at private sale to raise money to buy a mill and to develop the mine. The money that has been received from the sale of the stock has been so invested. A mill is now on the way to the mine, and when it is completed the work of crushing the ore will be begun. The mine is not being used at present. Numerous competent experts, and each has developed well. One assay showed \$15 in gold and silver ore to the ton. My husband, who is a thorough miner, if I do say so myself, of thirty years' experience, and myself have spent our fortunes for several years in the development of this property. We have no question as to the genuineness of the property. It will one day be greater than the Granite Mountain mine."

"At what price have you been selling the stock?" "One dollar per share. The stock is non-assessable. Young man, won't you buy some of it? It will make you rich." Mr. Mitchell was seen and said that he would vigorously prosecute Turgoose and his wife. "I am not the only victim who intends to make it warm for them," he said. "I was persuaded by G. B. Pease and took 400 shares of stock on the strength of the representations made by the Turgooses and Pease. It was agreed that the stock was to be sold for 50 cents a share, and after I had taken 300 shares I learned that Turgoose and his crowd were selling the stock at any price from 25 cents to \$1 a share. I then insisted on getting 200 shares at 25 cents apiece. Turgoose was president of the mine, I was vice-president and Pease was secretary and treasurer. The mine was run in such a shape that we removed Mr. Turgoose as secretary and gave the superintendency to Charles Saunick. Mr. Saunick went to the mine at Galena, Dak., with instructions to examine it and make a disinterested report of its condition. He made a report showing that there was nothing in the mine but stone and clay, and that the ore would not assay a nickel to the ton. I intend to follow up this matter, not particularly because I was deceived, but for the purpose of making an example of such persons. The mining frauds have deceived too many poor people and it is time to make them suffer."

Cough! and Cough!! and Cough!!!

What in the world is the reason you will cough and keep coughing and still keep trying inferior medicines when Bege's Cherry Cough Syrup will positively relieve

your cough at once? This is no advertising scheme, but an actual fact and we guarantee it. For sale by all druggists. R. S. Hale & Co., wholesale and retail agents.

An eminent physician says: A healthy liver secretes from two to three pounds of bile every twenty-four hours, and disposes of this secretion where it will do the most good. Now if the liver is out of order the whole system is in trouble, the spirits are depressed, the mind is not clear, and a person whose liver is not performing its duty is very soon unfitted for regular business. Dr. Henley's Dandelion Tonic rouses the torpid liver and enables it to perform its proper functions, thereby regulating the whole system. Sold by R. S. Hale & Co., wholesale and retail agents, Helena, Mont.

Be Merciful to Yourself.

And heed the appeals for assistance put forth by your liver, when the organ is out of order. Among these are distress in the right side and through the right shoulder blade, yellowness of the skin and eyeballs, furrowed tongue, sour breath, sick headache, above all, irregularity of the bowels. The mercy you extend to the afflicted organ is wisely shown by a prompt course of medicine with Hostetter's Stomach Bitters, most genial of alteratives, and the hepatic glands reciprocally react, the diseased action by resuming its secretive functions actively and regularly. Among the accompanying good results are renewed digestion, freedom from headaches and a resumption of activity of the bowels. All bilious symptoms disappear, and appetite and sleep improve. Beneficial are the effects of the Bitters in malarial disease, kidney disorder, rheumatic ailments and nervousness.

Dyspepsia

Makes the lives of many people miserable, causing distress after eating, sour stomach, sick headache, heartburn, loss of appetite, faint, "all gone" feeling, bad taste, coated tongue, etc.

Distress After Eating

requires careful attention, and a remedy like Hood's Sarsaparilla, which acts gently, yet efficiently. It tones the stomach, regulates the digestion, creates a good appetite, banishes headache, and refreshes the mind.

Sick Headache

"I have been troubled with dyspepsia. I had but little appetite, and what I did eat heart-burn would have a faint or tired, all-gone feeling, as though I had not eaten anything. My trouble was aggravated by my business, painting. Last spring I took Hood's Sarsaparilla, which did me an immense amount of good. It gave me an appetite, and my food relished and satisfied the craving I had previously experienced."
